| <b>Evaluation Remarks:</b>  |   |   |  |
| <ul style="list-style-type: none"> <li>• The field visit and technical committee analysis have identified significant deficiencies in the capabilities of the lowest evaluated bidder i.e., (M/s Soil Investigation Services) such as essential testing equipment, gadgets, and a qualified team to perform the tasks.</li> <li>• The 2nd lowest responsive bidder has demonstrated the capability to meet the tasks specified in the Terms of Reference (TORs).</li> <li>• Recognizing the urgency to address these deficiencies and finalize the procurement process, the Management Procurement Committee has thoroughly assessed the situation. In light of these considerations awarding the contract to the 2nd lowest responsive bidder was not only justified but imperative to ensure the successful execution &amp; timely completion of the services.</li> </ul> |   |   |  |
